Jhonnatan Barbosa

Game Designer

👤 Profile

Versatile game developer skilled in game design, coding, and art, recognized for delivering innovative and engaging gaming experiences. Proficient in seamlessly blending creativity with technical expertise to create memorable gameplay experiences. Eager to contribute a well-rounded skill set and a proven track record of success to help shape the future of gaming.

💼 Experience

Game Designer at Fox Tales Studios, São Paulo/SP

March 2020 — December 2022

Led game design process, incorporating creative ideas and mechanics to deliver engaging gameplay experiences. Actively participated in brainstorming, documenting, prototyping, and playtesting our games. Collaborated with a team of eight people to design, develop, and publish over 15 games, including award-winning games at GameJams.

Game Development Instructor at Engineering for Kids Brasil, São Paulo/SP

April 2023 — June 2023

Guided students in creating captivating games. Fostered collaboration & critical thinking. Provided personalized feedback & industry insights. Equipped students for successful careers in game development
